Council Supports Petition of Citizens

Asking That 192nd Battalion Be Re-Quartered

In The Pass For The Coming Winter if
They Are Not To Go Overseas

At the regular meeting of the town council held last night, considerable business was transacted. There were present: Mayor Sinclair, Councillors Evans, Beebe, Bartlett and Bartlett, and Secretary Treasurer Wright.

The minutes of previous meeting were on motion approved.

The following communication from the Trusts & Guarantees Company, Calgary, was read:

Calgary, Alta.,
August 13th, 1916

F. Wright, Esq.,
Secretary-Treasurer
Town of Blairmore, Alta.

Dear Sir:

I am in receipt of your formal notice of the 9th inst., advising us that the Town of Blairmore had seized certain chattels of the Keystone Portland Cement Co. for tax indebtedness, and thus it was the intention of the municipality to offer those for sale by auction on Saturday, August 19th. This comes as rather a surprise, in view of the fact that your letter of the 24th of July conveyed no suggestion of any intention on the part of the Town to take such steps, and in view of my letter in reply asking you to advise me what steps the town intended to take.

"We are mortgaged in trust for the bondholders, and it was quite impossible for us to take any protective steps in the extremely limited time which the town has placed at our disposal. I wish to notify you, however, that all the assets of the Keystone Portland Cement Co., 1914 and personal, are mortgaged to this company by a mortgage dated 23rd October, 1912, which is a floating charge as well as a specific real and chattel mortgage. The Town of Blairmore is entitled to distraint for taxes only against chattel property which may be situated on such particular lot against which taxes are assessed and are in arrears, and may not distract and sell such chattel property referred to in previous letter to them, and that they be asked to advise further.

Subsequent to a notice given at the last regular meeting, Councillor Evans introduced By-Law 52, a law to provide a mill rate for the Town for the year 1916-17, which by-law was read a first, second and third time and finally passed. The mill rate for the year is as follows: distance 11 miles, school 18 miles, general 9 miles—total \$2 miles.

Mr. Evans—That 10 per cent discount be allowed on current taxes paid before October 31st. Carried.

Mr. Bartlett—That the Secretary-Treasurer inform the Dominion of Canada Guarantee & Accident Co. that the Auditors have not found any trace of the proceeds of the cheque referred to in previous letter to them, and that they be asked to advise further.

Cowley Happenings

Miss Ethel Welsh is junior clerk in the Union bank here now.

Mrs. H. D. MacMillan has gone to Fernie for a visit to friends.

Quite a number of soldiers are working in the harvest here now.

W. T. Eddy, of Mayordom, was a business visitor in town on Monday.

Yours etc.,

H. A. Howard, Manager."

The Secretary-Treasurer informed the Council that the railroad ties seized on the 9th inst., for taxes owing by the Keystone Portland Cement Co. were sold by public auction at the Town office on Saturday, the 19th inst., in accordance with the provisions made in the Town Act governing such seizure and sale, the purchasers being the West Canadian Collieries Co., Ltd., Blairmore, the price being 26s each, which for 1284 items amounts to \$353.84.

The secretary was advised to write to the Keystone Portland Cement Co. on receipt of returns for the sale, advising them of the results and crediting them with the amount.

The following accounts were ordered paid, subject to approval by various committees:

W. A. Beebe, August rent of office, \$20.00.

Pelletier-Lumber Co., for bridge-top plank, \$50.10.

Henderson, Reid & Patterson, for auditing, \$37.50.

Frank Wright, salary for August, \$75.00.

A. McLeod, salary for August \$60.00 commission on licenses collected \$4.65.

Judge McNeil, for attending court

to the Red Cross dance at Pincher Station on Friday night last.

Pte. Ralph Easterbrook came down from Sarcee camp to spend a few days with his parents there.

J. Littleton, who has been working in the Union bank for some time, is taking a few holidays before going to Macleod, where he

Most Women Who Bake

Bread at home do so because they have never been able to get a whole-home-made loaf from their baker. As a general thing it isn't made, first on account of the increased expense, and secondly the old-time baker doesn't generally believe in it, or perhaps doesn't know how. Ordinarily, a blend of cheap flour and cheap yeast and no shortening. It cuts expense, but it also cuts quality. The best first-grade flour, and the best of other ingredients necessary to make bread with that tasty nutty flavor ought to be desired in bread, and in all parts of the Bellevue process. We think we can get good results. Lots of our customers think so. We are sure you will think so if you insist on "Bellevue" in your next order. When making sandwiches order a sandwich loaf from your dealer—simply delicious.

Bellevue Bread served in Blairmore at The Alberta Cafe (Brumas & Co) and at the Allies Cafe (Miss M. Faden).

Agents: F. M. Thompson Co., Blairmore.

—Yours for Quality—

Belle Vue Bakery

has been transferred.

After spending several weeks holidaying at Mountain Mill, Rev. W. M. Chalmers and family have returned home.

Mr. H. Sweet, of Calgary, has been secured as principal of the Cowley school and commenced his duties on Monday last.

Miss Helen Morrison, accompanied by Nurse Wells, has returned from the Lethbridge hospital. We are glad to say that Helen is getting nicely.

Rev. W. M. Chalmers no sooner got home than he retraced his tracks to his camping ground at Mountain Mill, taking with him Rev. D. K. Allan, of Coleman.

The Olin Creek school did not open on Monday, as was intended. A Miss Wiltrover, who came to take charge, acknowledged the fact that she was of German descent and was discharged on that account. We think a satisfactory

teacher will be secured within the present week and that this school will open without further delay.

On Monday night there was quite a little excitement in town over the disappearance of Brody Tuston and Robert Bird, boys of about nine years. When night came on the two lads could not be found anywhere. Thanks to the telephone, every ranch was called up for several miles around, when almost despairing of hope, they were located at High Pettit's ranch, and needless to say the parents rushed these kiddies home at once. We do not know exactly what transpired there, but we can guess.

Seven million women in Great Britain keep the wheels of industry moving while the men are at war. How can a nation that is shedding its best blood for justice refuse such women the right to vote?—Manchester Guardian.

New C. P. R. Station at Toronto

The old C. P. R. station in Toronto has been leased to the City for the nominal rate of \$1 per annum. "The new north end station is now in full operation and is situated with all the stores and accessories, giving great satisfaction to the public. The district in which it is situated has grown rapidly during the past few years. The C. P. R. believes, not only in accommodating present needs, but in anticipating those of the future. That is why it is so early and suitably located in all large centres of population, where there is promise of growth and development. The new north end station in Toronto and the north end station in Brandon will be ready in time for the opening of the new year." That attention, which seems to have denoted the Queen city for many years.

It has been recalled in connection with the melting down of church bells in Germany, that Cromwell had all Cork's church bells taken down and made into artillery, rendering what was garrisoned unrepresented by a priest, it was fitting the bells should be turned into "canons."

Minard's Liniment Cures Colds, etc.

Professor Lounsherry of Yale is a foe to the purist and pedant. On his summer holiday the professor gazed out across the lake one grey and sultry afternoon, and remarked:

"It looks like rain."

A pedant was seated in a rocking chair near him.

"What looks like rain, professor?" he chided.

"Ha, ha! I've got you there. What looks like rain?"

"Water," Professor Lounsherry answered coldly.

Scarcity of feed and low prices for poultry in the fall of 1914 caused a thinning out in flocks in Manitoba, and the result was not much good last year. As a result Manitoba's egg production was less last spring than it was two years ago.

Better Authority—"It was Shakespeare, wasn't it, who said, 'Sweet are the uses of adversity'?"

"Shakespeare may have said it originally, but Edward III, from a lawyer who pocketed 65 per cent of an estate," Boston Transcript.

7,000,000 Women Work

Filling the Places Vacated by Britons Called to War

It is estimated that the number of women now working in war and peace jobs in the British Isles exceeds 7,000,000.

The wholesale withdrawal of men from the commercial and industrial ranks has resulted in a huge substitution of female labor for the purpose of increasing the industrial output of the country. Some hundreds of women are training to become milkers and dairy hands. In Scotland and Northumberland this sort of work has been taken up by married women, while in Devonshire and other countries milking is being done even by young girls before they go to school. The same is true in the towns, in and caps, in the powder shell workers, two-thirds shifts on the motor buses or fashioning metal, timber and leather, carting, driving and distributing.

Grape-Nuts

(Made in Canada)

embodies the full, rich nutriment of whole wheat combined with malted barley. This combination gives it a distinctive, delicious flavour unknown to foods, made from wheat alone.

Only selected grain is used in making Grape-Nuts and through skillful processing it comes from the package fresh, crisp, untouched by hand and ready to eat.

Through long baking, the energy-producing starches of the grain are made wonderfully easy of digestion.

A daily ration of this splendid food yields a marvellous return of health and comfort.

Favorite Hymns

Some Hymns of the Christian Church, Both Old and Recent Compositions

The majority of sacred songs composed since today are compositions of modern times. In the centuries long ago, the hymnologic compositions of which, come down to us have been continued and retained mainly in the hymns of present times. The earliest effort of the hymn writer is possibly that of the Greek, Synesius, in his "Hymn to Christ." This song, "Lord Jesus, Think On Me," has been translated by Rev. W. J. Charnfield, English clergyman, and contains a number of verse in remote eras. The greatest maker of sacred verse was Faustus Crosby. Upward of one hundred hymns have been written by him, of these, "Safe in the Arms of Jesus," is of world wide knowledge.

John Mason Neale, an Episcopal canon, also wrote hymns, and some translations from Greek and Latin of very early period. One of the best known homiletics and recent day hymn writers is Bishop Keir Hardie, of the English diocese of Exeter. He has been bequeathed to Christendom, fourteen songs, of which, "Hail, Come, O Let The Light of Your Presence Shine" is the best known. The immortal composition of Young, "There Is Happy Land Far Away," is another classic. The evening song, "Glory to Thee, My God This Night," forever perpetuates the name of Bishop Keir Hardie. Another well known author is Kebel's "Son of My Soul." A compilation of Bishop Heber, "Holy, Holy, Holy! Lord God Almighty," is another immortal. "All Praise That on Earth Doth dwell," is a never fading hymn, a remark likewise applicable to Dr. Williams' "Ages of Master effort of Toplitz." Covering a wide range of topics, the author of "For a Closer Walk With God" is Dr. Williams' "Pink Fills." Though the result of my condition I was greatly improved, I am grateful to Dr. Williams, and thanks to that good friend's advice after using a few boxes I began to feel much better. Under the power of his grace I have been steadily improved, though I still have a ways to go. I am grateful to Dr. Williams' "Pink Fills." I am so grateful for what this medicine has done for me that I will do all I can to extend its use.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Toledo, Ohio, Vt.

GOOD RICH BLOOD MEANS GOOD HEALTH

Just a Little More Rich, Red Blood Cures Most Ailments

The lack of sufficient rich, red blood does not end merely in a pale complexion. It is much more serious. Blotchy people are tired, weak, have been promoted; some have been wounded; but the spirit they displayed in the field of battle were great. Indeed, the railway men of the country have done nobly in responding to the call. In England over 200,000 men are serving at the front in Canada, possibly 6,000, all have had a good start—a splendid record considering our railways and general population. The value of such promotion is found in the growth of the people already employed in the Dominion. We do not see, as they are without surprise in the large cities, thousands of workers—dressed in overalls, many of them, cleaning engines, cleaning stoves, acting as porters and wheelmen, telephone operators, all these telegraph operators. We will hardly come to that, but the value of these in the clerical domain has gone up considerably, probably. It is urged in England that the women workers' men's attire for greater convenience in making of the avocations they pursue.

It is not necessary to wait for the discussion in the press to bring the matter to the notice of the public, but we have voluntarily parted with external femininity. The situation is so acute with us, but the call, in all medical departments is for female clerks.

GOOD WORK OF DOMINIONS HAS BEEN REVELATION TO THE WORLD

GEN. ROBERTSON ON SOME PHASES OF THE WAR

Expresses High Appreciation of the Splendid Fighting Spirit And Well Organized Canadian Armies Which Have Demonstrated the Quality of Manhood

"No we really are not worried by the course of events," said General Sir William R. Robertson, chief of the imperial staff, at arm's headquarters, in an interview with the Associated Press.

"As far as the new offensive, a glance at the map will tell the story of progress. And the happy expression of the wounded soldiers from the front reflects the spirit of the men. Do you notice it?" he asked, showing photographs showing them smiling or laughing.

The general himself smiled as he spoke; nevertheless, his words subtly conveyed his realization of the fact that he was breaking the silence he had observed so rigidly since the beginning of the war, while seated at a table in the war office, within a few feet of the desk which permits him, in the aid of war correspondents, constantly arriving messages to direct the moves in the conflict in France.

The room is in keeping with the character of the man. It is furnished with such simple articles that the table, charts and map rack are the only articles of furniture.

"Our forces were told by the ready response to our call by Britons from overseas on the outbreak of the war," the general continued. "To say the present of these men underestimates our strength is to ignore the fact that these sturdy sons of Australia, New Zealand, South Africa, Canada and our gallant little Newfoundland can stand up well. Their thousands surprised the enemy, and their valor and gallantry in battle were a revelation to the world."

"We have come to feel that our type of government is not so bad after all. Yes, they are still coming, and while it is hard to single out particular parts of the empire, the Canadians can learn a great deal from you your high appreciation of their splendid fighting spirit and well-organized armies. The men and many other closely related engagements they demonstrated the high type of vigorous manhood produced by our system."

The subject of general speculation as to how long the war would last caused the general to shake his head and smile.

"That is a question touching human nature, which means dealing with a dubious proposition," said "Non la" in his usual quiet manner.

Referring to the complimentary references by military experts to the work of the big British guns and the use of the British offensive, Sir William remarked: "The British gun interests not only because of their scientific training required to produce them, but on account of the care and attention given to the gunners, which is necessary before the gunners are proficient. Scientifically accurate gunners, resulting in this war, probably as never before, in the necessity of firing over the heads of advancing infantry of one's own side makes it so, and it is necessary that troops be advanced in high perfect confidence in the gunners."

A Hero of France

A Visible Symbol of All That France Has Suffered in the War

But it is General Gouraud who most impresses anyone else perhaps has touched the heart and the imagination of the army more than any other. Some measure of doubt to the personal qualities of his figure. In Gallipoli he lost his life, and his body was left broken, and an arm limbless. After the parade, leaning heavily upon a stick, he looks like the visible symbol of all that France has suffered in these tremendous days. His strength, more than the physical appeal is the moral appeal of a personality of extraordinary commanding strength that looks out through the blue eyes I have seen with a candor and a frankness, and a sympathy that are strangely moving. "I seem to see all Africa in these eyes," says a French officer to me referring to the fact that it was Mauritania and Africa that Gouraud made his reputation. "He is more than Africa there. He is the soul of France. He looks out from those eyes—the soul of a nation which is measuring the power for humanity against the passion of might—A.G.G., in London News."

Why Prussia Makes War

The war of 1866 was entered on, not because the existence of Prussia was threatened, or in obedience to public opinion, and the voice of the people, or a strong, long fought, and calmly prepared war, organized as a necessity by the cabinet, nor for territorial aggrandisement or material gain, but for an ideal—and the establishment of that ideal a foot of land was exacted from conquered Austria, but she had to renounce all part in the hegemony of Germany, and that was the history of the Franco-German War".

The manager of a bill department store is having every employee take swimming lessons before the employee is permitted to have a vacation. There's a sensible idea. But excellent idea, too. If a man wants to swim, it seems to us to be a most excellent thing not to allow him to leave town to do well. Mr. Dalton, a "good" friend says: "It is the crack swimmer that can swim twenty-five fathoms each day, and they have to be confined to the house during the winter. The pleasure and exercise are there are several benefits. Do not play at swimming. Help. Do not run risks. Do not enter contests. Swim quietly and always safely." New York Globe.

The Demand for Livestock

Jewish Trade in New York Takes 10,000 Head Weekly

The demand for pure bred cattle is increasing rather than diminishing, and many were the sales at both Calgary and Edmonton. In fact the demand was greater than ever. On the days the firm of Yule and Howie sold nearly \$7,000 worth of cattle.

Eleven head went to T. B. Ralph, George Field of Hinton. Field is a new beginner and has chosen shorthorns with which to try his hand. He paid \$100 to G. W. Giles of Gadsbury, Alton, Mo., 10 months old bull brought \$400, less \$25 for 2-year-old bull, less fancifully priced at \$350.

Glenengrahan Aberdeen herd sold several head also at very fancy prices.

How Duncan Marshall has brought in Alberta a number of choice Shorthorns, among them a fine bull of Diamonds, a son of Gainsford Bull.

This bull is 3 years old and his dam was a sister of one of the famous cows of the West.

Marshall paid the tidy sum of \$1,000 for him to George Anderson of Bouvier, Ont. Another choice bull sold at \$1,000.

Over a hundred thousand cattle are now encamped on the plains and in the valleys somewhere near Salmon Falls, a number of men are here.

Over 100,000 cattle are here.

*Oil Of Orilene Will Reduce
Weight A Pound A Day*

In many instances—if you suffer from, excessive fat, stomach or liver disorders, perhaps you do not know your trouble may be due to lack of oxygen in the blood.—To tell

If you will make an astute test of all people who are fat, who suffer from stomach, liver, or other troubles, you will be surprised at the exact number of cases who lack oxygen in the blood and who are fat and failing from other causes. Without oxygen the blood loses its power to properly animate your food, and stimulates your metabolism, which will keep you fit and healthy, becomes fussy, soft and plump. As a result of this blood星光，you become fat and slow generally, tired, listless, drowsy and apt to take a nap when the least exertion leaves you breathless and miffing like a porcupine. In all such cases it is worse than useless to dress yourself with numerous articles of clothing, this will only serve to whip up your vital powers for the moment, snags at the expense of your life later on. And you must not continue to put on weight. Er-

eryone knows fatty degeneration of the heart, lungs, kidneys, liver, etc., disease.

No matter what anyone tells you, if you can tell it to yourself to make the following test: take a long deep breath and then see how many steps you can take without being compelled to stop. Make take a few steps, then one step, one after each make and one at time for two weeks, then make the same test again. You will be surprised to find out how much further you can walk and run when the same test will feel on your feet. People who are fat and failing all the time may double their strength and endurance and reduce weight a great deal by simply taking oil of orilene.

Oil of orilene capsules are made to increase the little red corpuscles in the blood making it possible for the blood to carry more oxygen, anything from 10 to 20 more vitality and energy. Absolutely harmless, it will injure the most delicate, wonderfully efficient and blackmailing human cells that howl and writh in mental agony when the editorial harpoon tears away their masks, exposing their detestable acts to the gaze of an outraged and indignant world—Er-

The arrival of the German merchant submarine Deutschland at Weser, Germany, is reported. The Deutschland is said to have covered 4900 miles on her return journey.

Charles Chestnut has arrived in Blairstown to renew old associations, and will in future re-engage in his pit-boss with the West Canadian Collieries at Greenhill.

Pte. Donald McLeod, of the 122nd, came home for harvesting, which is now in full swing at Blairstown.

The Merchants Defense

Recently a merchant of Natches happened to see a farmer receive a box at the depot and noticed that it was from a mail-order house. He also noted that the goods were right in the box and the postage was carried for years. He immediately approached the farmer and said:

"I could have sold you the goods you have here for less money than the Chicago house and saved you the freight."

"Then why don't you do so?" said the farmer. "I have taken the local paper for a year and have not seen a line about you selling them or any other goods. This mail-order house sends advertising matter to me asking for my trade, and they get it. If you have any bargains why don't you put them in the paper so we can have what they are?"—Natches News Democrat.

A Hard Trail

In these days of dollar worship, onward pull and supercilious honest man finds his trail null of thorns. If he tells the truth, he will be tried for heresy, and receive his marching orders.

If a lawyer tries to honest and tells his clients that they cannot win, they will go to a shyster who will take any case for money, and use any means to win, even to the hiring of skilful juries for the witness box.

If an honest doctor tells a patient that there is nothing the matter, except in imagination, that patient will often like away to some disreputable medico who will humor his notions, fill him with bread and water pills, and get him money.

If a merchant keeps the sand out of his sugar, and does not measure and thin down his flour, he will be tried for it.

It is a hard trail for a man to follow, because the prices are exceedingly lower.

The show or circus merely always lies lying advertising. Indeed, evidently with the idea that lying is necessary in order to draw the crowd, and fill the home.

If an honest doctor tells a patient that there is nothing the matter, except in imagination, that patient will often like away to some disreputable medico who will humor his notions, fill him with bread and water pills, and get him money.

If a merchant keeps the sand out of his sugar, and does not measure and thin down his flour, he will be tried for it.

Some women cheat extenuably with paint, powder and padding. They wish to pass for cream when they are only skinned milk. To have a woman tell her corset age, between 20 and 60, is asking too much of a sex skilled to the utmost in the art of deception. After all, we have known some women who added years instead of subtracting them from their age. Why all this feminine deception? The result of the most hideous follies in charm.

The politician who assays 100 per cent in honesty has not yet been discovered, because of the sellab and grafting nature of voters. Any politician who is the purveyor of honor and high ideals cannot be elected in this age of dollar chasers.

The honest editor is sometimes found, but his life is one of excitement. If he exposes the crooks and shysters in private or public life, he runs a fearful risk of being knocked down on the street and concentrated 6 to 1. If he tells the truth about church, state, and state, the photographic records of anonymous "detectives" and "muckrakers" will boycott him and bring him into immediate ignominy. "O'erly him! O'erly him!" He has told the truth about our masters and must not live.

So the editor who desires to live without war and bloodshed should not expose the evil and unlawful doings of political prafers, legal shysters, municipal priests, crooked merchants or psalm singing hypocrites. He should sup his gruel in silence, and keep his pen out of the nitric acid, and watch the shark skin the sucker, and the wolf eat the lamb, without putting forth an effort to protect the innocent and save the weak from destruction. The spinster editor never gets fat and failing all the time may double herself strength and endurance and reduce weight a great deal by simply taking oil of orilene.

Oil of orilene capsules are made to increase the little red corpuscles in the blood making it possible for the blood to carry more oxygen, anything from 10 to 20 more vitality and energy. Absolutely harmless, it will injure the most delicate, wonderfully efficient and blackmailing human cells that howl and writh in mental agony when the editorial harpoon tears away their masks, exposing their detestable acts to the gaze of an outraged and indignant world—Er-

Alberta Department of Agriculture Meeting Farm Labor Shortage

The Department of Agriculture for the Province last completed its organization to meet the problem of interest help. At a meeting held at Winnipeg at the end of July, a representative of the Alberta Department of Agriculture and the governments of Saskatchewan and Manitoba met the passenger agents of three transcontinental railways and made arrangements for the distribution of harvest hands at reduced rates in all three provinces.

The railway companies will offer special rates for harvesters' excursions from the East from Aug. 15 to 22 and for drivers from Aug. 29 to Sept. 5th. Concessions for the transportation of laborers within the province have likewise been secured. The rate both for the transportation of laborers from Winnipeg to points within Alberta and for laborers from one point to another within the province will be 15c. per mile, with a minimum of one dollar and fifteen cents. It is estimated that 10,000 laborers are required in Alberta. The sources of supply are Eastern Canada, Sault Ste. Marie, the United States by way of Winnipeg, Coutts and Kinggate, and the Province of British Columbia.

The Department of Agriculture has carefully organized its intelligence and distribution service under the direction of Chas. S. Hitchcock, Chief Publicity Agent for the Department. Laborers are distributed from three points in the province—Edmonton, Calgary and Lethbridge. Certificates will entitle the holder to purchase tickets at reduced rates issued by agents of the Department at various points. The parties in charge are Chas. S. Hitchcock at Edmonton, J. A. Weir, Lethbridge, W. Grant, at Dairy Commission office, Calgary and L. Hartman at Service Centre. Another agent is situated at Prince George and tickets are available from railway agencies at the boundary on presentation of certificate from Canadian Government agents which will be good for reduced rates, and from Mr. Ireland of the Department of Labor in Vancouver for rates from Victoria, Vancouver and New Westminster.

The agencies of the department are established not only for securing the distribution of harvesters but for supplying on request the needs of farmers. Already considerable movement has taken place among the soldiers of harvesters to facilitate east and west migration from Canada to the U.S. and to Europe. The Canadian City is to be 101 million, and the imports of the British city being \$1,282,100,000, and the exports \$636,000,000. Hamburg was 6 million, London with a total of \$1,901,000,000, but the trade of Hamburg is a thing of the past, thanks to the watchful activity of the British. Liverpool ranks fourth with an aggregate of \$1,046,000,000. Marseilles following with less than half these figures. Of the cities of the British Empire Calcutta comes next to Liverpool with a trade of 517 millions; then come Bombay, 428 millions; Singapore, 352 millions; Hall, 311 millions; Sydney 305 millions; Montreal, 251 millions; Shanghai, 239 millions; Manila, 206 millions; Melbourne, 195 millions; and Southampton 186 millions. Montreal exceeded Liverpool in the volume of its foreign commerce and the trade advance of the Canadian City is more rapid than that of the Hub.

A Radical Change
In Recruiting

Tuesday, Aug. 16.—The government at Ottawa's council had under consideration the methods of recruiting and some changes in the system, which in the light of experience are regarded as necessary. Details of the proposals are not yet announced but it is understood that they provide for a greater system in enrollment of troops and for securing information as to the men who are available and those who have good reasons for staying at home, such as being engaged in industries vital to the war. It is probable that the men will be issued to those who have been rejected, or to those who are engaged in work calculated to benefit the cause. Recruits will be sent to the front, to be sold to soldiers of the British Expeditionary Force, and will be expected to go to the length suggested as registration. At the same time there will be steps to find out more methodically those who are available. Canada has undertaken to enlist half a million men. About 365,000 have been enrolled.

Recruiting seems to have gone through two distinct evolutions. At first the method volunteered by thousands then recruiting methods appear to have been themselves, though the fall of doubtless attributed to a large degree to harvesting operations and the heavy demand for men for munitions and industrial purposes. It is believed that with a little more method the balance of about 150,000 quite readily will be forthcoming.

At the last Session of the Legislature amendment was made to the Ordinance respecting Hire Receipts and Conditional Sales providing that in order to preserve the rights contained therein, a renewal statement of the affidavit still due for principal and interest and all of payments made on account of hire notes and hire receipts shall be filed within thirty days of the expiration of two years from the first filing, and thereafter renewals shall be filed within ten days of the expiration of two years from the date of the previous filing.

The last Session of the Legislature

shall be filed within six months of the date of the amendment.

The amendment was passed on the 19th day of April, 1916, so that the time for registering renewals of hire notes and hire receipts originally filed two years or more prior to the 19th day of April last will expire on the 18th day of October next.

Renewals must have an affidavit attached setting forth that the statement is true and that the sale of bailment writing is not kept on foot for any fraudulent intent, intent to defraud, delay or preclude creditors and that the party filing the registration district where the property is situated at the time of the making of the statement. Parties holding hire notes or hire receipts who do not file renewal statements as required lose their lien on the goods or chattels.

A message from Nome to Commissioner Perry, of the Royal North West Mounted Police at Regina, concerning the information that the two Eskimos murderers of Fathers Rouverois and Leroux, have been captured in the fastnesses of the north. Fathers Rouverois and Leroux were Catholic missionaries, who left Nome in July, 1915, for the Dease river district, where they intended living with the Eskimos in the tundra. For some time October 5 of the same year letters were received from them by Father Ducat, at Fort Norman, in which their intention was expressed of following the Eskimos to the sea, and living with them for two years. In November news arrived to the effect that two huskies had been seen in the Dease river country wearing the priests' cassocks. Thereafter the R.N.W.M.P. took the matter up and secured evidence which led to the belief that the priests had been murdered. The men captured by the R.N.W.M.P. have since confessed to the crime.

World Ports

New York now stands at the head of the world's great ports and is probably the first in population the aggregate trade last year amounted to \$2,125,000,000, as compared with London aggregate of \$1,928,000,000.

The American city is to 101 million and the imports of the British city being \$1,282,100,000, the exports \$636,000,000. Hamburg was 6 million, Liverpool with a total of \$1,046,000,000, Marseilles following with less than half these figures. Of the cities of the British Empire Calcutta comes next to Liverpool with a trade of 517 millions; then come Bombay, 428 millions; Singapore, 352 millions; Hall, 311 millions; Sydney 305 millions; Montreal, 251 millions; Manila, 206 millions; Melbourne, 195 millions; and Southampton 186 millions. Montreal exceeded Liverpool in the volume of its foreign commerce and the trade advance of the Canadian City is more rapid than that of the Hub.

Local and General

R. W. Pinkney, Q.M.S., of the 192nd battalion, is enjoying a brief furlough with his parents here.

Miss Sarah Morris, of Calgary, is the guest of Miss V. Keith for a few days.

Miss Vivian Keith has returned home from a visit to friends in Calgary.

Roy McEachern, of the local branch of the Royal Bank, is to be transferred to the Regina branch.

Mr. and Mrs. John R. Smith, of the West Canadian Collieries Co., are visiting with Mrs. Smith's parents at Tyrone, Pennsylvania.

Mr. and Mrs. Raoul Green, and Mr. and Mrs. L. P. Robert attended the golf and tennis tournament at Hillcrest on Wednesday afternoon.

Miss Blanche Phinney, who had been spending a few weeks in Calgary, the guest of Mrs. R. Voelker, returned home this week.

Pte. Charles Ouimet has returned to his home at Coleman, having but recently come out of a hospital in England, where he was being treated for wounds received in the trenches. Pte. Ouimet was one of the few rescued from the ill-fated hospital ship *Anjou*, which sank while crossing the English Channel in December last.

A resident of High River has been fined fifty dollars and costs for having liquor on certain premises that did not constitute a private dwelling. Walter Matz on whose premises the liquor was found was subjected to a similar fine, although he was obviously ignorant of the liquor being on the premises.

A message from Nome to Commissioner Perry, of the Royal North West Mounted Police at Regina, concerning the information that the two Eskimos murderers of Fathers Rouverois and Leroux, have been captured in the fastnesses of the north. Fathers Rouverois and Leroux were Catholic missionaries, who left Nome in July, 1915, for the Dease river district, where they intended living with the Eskimos in the tundra. For some time October 5 of the same year letters were received from them by Father Ducat, at Fort Norman, in which their intention was expressed of following the Eskimos to the sea, and living with them for two years. Frank Happenings

Jack Foster, of the McCall Oil Co., Calgary, was in town today.

Work on the new Methodist parish hall is going ahead rapidly.

Mrs. J. Fairhurst and Mrs. Hamilton were visitors at Hillcrest on Tuesday.

Mrs. A. J. McKinnon motored to Michel this morning, where she will visit friends for a few days.

The offices of the Franco-Canadian Collieries Co. are being renovated by Contractor Sinclair, of Blairmore.

A. V. Turner, school principal, returned this week from his summer vacation, spent at the Edmonton summer schools.

W. H. Hilton and Alf Tristram returned from Calgary by train on Friday last, having left their car in the tow town for repairs.

Tom Dawson, Jack Bone, J. Gibson and Harry Jepson will accompany Bob Niven and Fred Raynor to North Fork next week.

A party including "Bob" Niven and Freddie Raynor, intends leaving early next week on a two weeks' fishing and hunting trip along the upper waters of the North Fork.

H. D. and Mrs. MacKay returned on Sunday last from a two weeks' camping and fishing trip on the North Fork. They leave today for Gleichen, where Mr. MacKay resumes his duties as school principal.

Louis Weng, until recently cook at the Cosmopolitan hotel, Blairmore, has opened up the old Frank restaurant, where he hopes after thoroughly renovating the place to conduct an up-to-date restaurant.

Work on the foundation for the new school is progressing rapidly and it is hoped to have the new building in readiness before the

end of September. In the meantime arrangements are being made to accommodate the classes until the new building is completed.

H. A. Howard, manager of the Trust & Guarantee Co., Calgary, was in town today accompanied by a military hospital commissioner, who looked over the Sanatorium with a view to the Government acquiring same as a hospital for returned soldiers.

Lawrence Ryan was renewing acquaintances around here this week and incidentally becoming acquainted with dead people requiring tombstones. We understand that he spent a day or two in Lethbridge and Blairmore, but could find no prospect for business except with some of the merchants. We know of lots of dead merchants who only require the addition of a headstone to complete the job.

At a general meeting of the shareholders and directors held at the office of The Franco-Canadian Collieries, Ltd., at Frank, on Thursday last, directors were elected for the ensuing year and other important business was transacted. The report of the secretary-treasurer for the past year was very encouraging and prospects for the future of the mines at Frank were shown to be very promising.

An enjoyable farewell party was given to Mrs. J. J. Thomas by a number of her friends from Frank and Blairmore at her home on Wednesday night, when she was presented with an address and a beautiful cut-glass sugar bowl and cream jug. Mr. F. M. Pinkney, of Blairmore, made the formal presentation. Mrs. Thomas leaves this week end for her new home at Altona, Alta., a small farming town about sixty miles south-east of Camrose.

Emitting a series of blood-curdling yells, Chung Hing, a Chinaman, pursued E. Brown, an alleged pickpocket, along Hastings

To Buy The Brisco Block

We understand that negotiations are in progress between the owners of the Brisco block, on Victoria Street, and F. S. Kafoury, of the Blairmore Trading Company. The deal if put through will represent a turnover of several thousands of dollars. The Brisco block is one of the best business stands in the town, and the new landlord will no doubt be amply rewarded for his enterprise.

Street, Vancouver, one day last week, and in the midst of a dense crowd recovered the wallet containing \$1400. The Chinaman is a mill contractor and had just drawn \$4000 from the bank to pay workmen.

It is reported that during the concussion caused by the explosion in New York recently a typewriter fell from the Woodworth building — the highest in the world — to the concrete sidewalk without being damaged. The explanation is that the young lady stenographer who used the machine had it all stuck up with gum, or else the clock struck suddenly the night before and she had suddenly departed, leaving the "commas" and "periods" key down, and the machine made a slight pause before coming to a full stop.

With a payment of \$665,000 outside court the White Star Line stand absolved of liability for the sinking of the steamship Titanic, with a loss of 1600 lives, and the four years of litigation of claimants is brought to an end in a final decree handed down by federal judge Mayer at New York. Claims totalling \$18,000,000 had been recorded by hundreds of claimants, alleging that the ship was lost through the negligence of her navigators. Evidence at the trial indicated that the disaster was accidental, the claimants under terms of a compromise made outside of court agreed to accept the payment of \$665,000 and withdraw their claims.

A home for the widows and orphans of Orangemen and also for aged members in destitute circumstances is to be erected in the west by the three grand lodges of Saskatchewan, Manitoba and Alberta. The location has not been arranged yet.

The repeated unofficial reports that Portugal was about to take an active share on the European battlefield are apparently confirmed by an announcement from Paris that a Franco-British military commission has been sent to Lisbon.

Eleven Hun prisoners escaped from a covent prison in France by means of an underground tunnel which probably took weeks to dig. Four of the escapees were captured, one of whom had on his person a chart of the surrounding country.

A Lesson From The Aeroplane

The force that makes the aeroplane — a heavier than air machine — overcome the law of gravity is the propulsive power of the motor. Stop the engine and gravity exhibits its law.

In much the same way the propulsive power of advertising makes a business triumph over dragging-down tendencies, personal inertia, quiet times and general business depression.

Advertising is the propeller. The merchant is the pilot. His business is the machine. His community is his sustaining medium.

If you want business to soar, start the motor of advertising.

Labor Day Celebration

Blairmore, Monday, September 4th, 1916

Under the auspices of Blairmore Local Union 2163, U.M.W. of A.

Addresses will be given at 10:30 A. M., 2 P. M. and 4 P. M. in English, French and Italian. Subjects regarding Labor Organization

Athletic Sports -- (Local Men only)

Comprising One-Mile Race, Half-Mile Race, 100 Yards Dash, Obstacle -- 100 Yards

Boy's Races

12 to 16 Years	100 Yards
8 to 12 years	100 Yards
Three Legged Race	75 Yards
Sack Race	50 Yards

Girls' Races

12 to 16 Years	75 Yards
8 to 12 years	50 Yards
Skipping Contest	Girls 12 to 16
Potato Pickling Race	25 Yards

Fat Men's Race

200 pounds and up	50 Yards
-------------------	----------

Married Women's Race--50 yards
Nail Driving Contest--25 yards
Egg and Spoon Race--25 yards

Proceeds to be devoted to the Sick

Benefit Fund of Blairmore Local Union

Echo of Waterloo

Grandson of "Marshal Forward" Blucher No Friend of Prussia

Prince Gebhard Blucher Wahlstein, grandson of the first and famous Prince Blucher of Waterloo, has died as the result of a fall from his horse in Britain.

The grandson of old "Marshal Forward" was friend of the Prussians. For many years prior to the outbreak of war he had lived in England.

In 1889 the Prussian House of Lords declared he had forfeited his seat in that body.

Prince Blucher carried on a legal warfare with the city of Berlin over taxation and similar matters, for the greater part of his life. He also planned to sue the prince at Brandenburg for a cafe, and the court was compelled to invoke the courts to prevent what it considered a desecration.

Litigation with his two children also occupied him during the last few years of his life. His eldest son held a high salaried position in London, while he lost the beginning of the war. He sued his son for nearly \$1,000,000, and the Prince was ordered by the court to pay half that sum up to last January and 15,000 yearly thereafter.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

We need the plain, honest truths derived by those who possess them. Too often they are collected possess them a self-centred notion that the world is under obligation to them and that their elevation has made them wise enough to rule the world's labour. A man or woman who does not at some time in early life taste the weariness of manual labor has a poor chance to work and to be pined. H. E. Codd in American Agriculture.

Exhibition of War Surpassing.
Professor Archenhold, of the Royal Astronomical Society, Berlin has organized an interesting exhibition which is being patronized by all classes of society. It is principally made up of amulets and charms of all sorts carried by German soldiers in the superstitious belief that their possession is proof against harm or death.

A particularly popular object advertised is a "Letter from Heaven," which is being sold in huge quantities at 2 1/2d. to 3d. A fragment of it is described as "an infallible shield against all hateful persons, witchcraft, and works of the devil." Bearing the mystic initials "S.J.K. H.B.K.N.K." it declares that all enemies of the soul of Michael, all guns must cease firing at him who carries this letter with him."

No letters from the Kaiser are on exhibition.

Nothing New Under the Sun

Aeroplanes and Submarines Are Said to be Centuries Old

According to researches by a French professor, it would appear that the submarine has almost as many as aeroplanes, which, as is well known involve ideas which are centuries old.

It appears that submarines were built as early as the beginning of the seventeenth century. The origin of the invention is older still. Aristotle tells how Alexander the Great made use of ships having sides of Tyre more than 300 years before Christ.

A Dutchman named Cornelius Van Drebbel is said to have built a submarine that held twelve crewmen and some passengers, among whom was King James I.

Previous to the year 1534 a monk suggested the idea that a ship be constructed of metal so as to be watertight and able to resist the pressure of water.

In 1840 a ship with twenty cannon, eighty sailors, and many bags of money on board blew up and sank in the port of Dieppe.

Three years later, Frenchman Jean Barbot, a citizen of Paris, according to the old monk's idea, a submarine with which he promised to rescue the bags of gold and silver from the wrecks and possibly some pieces of armament.

The great Pascal, then a little boy, was an eye-witness to the experiments of Barbot, which were carried on till 1650 with entire success.

But it is not on record that any of these submarines were murderers of little children.

Eggs and Poultry Trade

The Western Canadian Farmers' Great Opportunity to Build Up a Profitable Industry

Perhaps never again will Canadian Farmers have had such a wonderful opportunity presented to them of developing a great, profitable, and abiding egg and poultry trade with Great Britain as is literally being thrown in their way today; and most assuredly, if this great opportunity is grasped, the result will be a poultry industry of such magnitude and profitability as has never been dreamed of even by the most enthusiastic.

There is a demand in the British market for eggs and poultry such as has never been known before. From the year 1909 to 1915 the imports of eggs into Great Britain increased from 177,000,000 dozens to 215,000,000 dozens. It is estimated that for 1915 and 1916 at least 100,000,000 dozen of this supply must be cut off so far as the former is concerned.

At the time of the outbreak of the European war Canada's exports of eggs amounted to practically a sufficient quantity of eggs for home consumption, and our imports of eggs were increasing year by year.

Since the outbreak of the war Canada has had considerable quantities of eggs to Great Britain, and careful consideration of the business done with Great Britain during the period of the war will show that at the present time we will show us that we are in danger of losing a golden opportunity, but that the opportunity is not yet past.

In the first place, there is to be feared that we have not been shipping eggs of such quality as will encourage a continued demand from Britain after the time of peace has come.

Secondly, we have been shipping eggs of such quality as we might easily have had to ship.

In spite of the wonderfully favorable conditions existing in Canada for the production of the very finest quality of eggs, Canadian prices were far above those in the United States eggs, which goes to show what could be accomplished in the effort.

Now comes the question "How have we managed to export eggs to the British markets at all?" Simply by slightly increasing the production and distribution of our own eggs and by marketing them with imported eggs. Then, taking our western eggs we find that the eastern egg dealers, in their efforts to meet the export demand, came west to buy eggs, but found that our western eggs generally were of a quality such as would find favor with the British market.

According to the Animal Welfare Association of Detroit there are 60,000 horses in that city. In fourteen years in spite of the horse-block and the automobile increase in the city, the horses have increased from less than 13,000 to 60,000.

BLAIRMORE, ALBERTA

Mark Sartoris has secured a lease of the store at the corner of Victoria Street and Ninth Avenue from the Calgary Brewing Co., and is converting the place into a fruit, candy and tobacco store, and ice-cream parlors.

Mar Poy, Blairstmore's restaurant magnate, has helped to turn the first soil for the new and promising town of Etzikom, where he has invested a portion of his hard-earned money, from which he hopes to derive a living revenue.

Edgar Thomas, who for the past couple of years has been connected with the Union bank here, has been transferred to the Bank of Barbers, Alberta. Miss Lillian Blais, of Frank, succeeds Mr. Thomas at the loc- al bank.

The post office department has issued the following statement to the public: "The British authorities advise that parcels for prisoners of war in Germany must not be wrapped in linen, calico, canvas or any other textile materials." The obvious purpose of this order is to prevent any textile material finding its way to the Germans for explosive uses.

OF LOCAL AND GENERAL INTEREST

In Italy gasoline is \$1 dollar a gallon.

If every man wrote his own epitaph, cemeteries would not be so monotonous.

The name of N. J. Backus, of Lundbreck, appeared in Tuesday's casualty list as wounded.

The Rocky Mountain Cement Company is handling a large order for crushed rock for the C.P.R.

Rumor has it that the local branch of the Royal bank is to be closed about the end of this month.

R. W. Thompson, D. F. Fleming and N. H. MacAuley motored it from Fernie on Wednesday afternoon.

The Fernie Free Press has put in a linotype. The editor does not say how he got it.—Greenwood Edge.

S. Trono has moved into his new store, which is now one of the brightest and neatest jewelry shops in the Pass.

"Peg o' My Heart" will appear at the Blairstmore opera house on the night of Tuesday, September 19th.

W. J. Huston was in from Maycroft for a couple of days last week. Mr. Huston's school reopened this week.

Pte. Mark Harrison, of the 122nd, came down from Sarsce this week on a visit to his parents at Grassy Mountain.

Mr. E. Michener, M.P.P., is having a serious siege from bronchitis and stomach trouble, and has not been able to eat solid food for over three weeks.

Victoria Chapter of the Ancient Order of Foresters, at Victoria, B.C., has issued a warrant for the arrest of the treasurer on the charge of misappropriation of \$3147.

Rv. Edwin Smith, former pastor of the Presbyterian church at Macleod, has given up the pulpit in Ontario to take command of a motor cruiser in the British submarine patrol.

The funeral of the late Dr. H. G. McKidd was the first motor funeral held in Calgary. The body was carried to the cemetery in a motor hearse and there were over two hundred motor cars in the procession.

A number of French senators and deputies are to visit Canada in return for the visit of the Canadian parliamentary party to France. Heroic France's representatives are assured of warmest welcome in the Dominion.

Couat Zeppelio, whose airships have dropped death from the clouds upon English children and their mothers, has been chosen honorary president of a new society for the protection of German "infants and small children."

It is estimated that during the ensuing year, commencing September 1st, the Patriotic Fund will disburse \$1,500,000 in Alberta in assisting dependents, while on the other hand the province will only be asked to contribute about one-half of this amount, older and richer provinces being expected to provide Alberta's deficit.

A gentleman is a man who is clean both inside and outside; who neither looks up to the rich nor down on the poor; who can ride without squealing and win without bragging; who is considerate of women, children and old people; who is too brave to lie, too generous to cheat, and who takes his share of the world and lets other people have theirs.

Repairs are being effected to the road between Blairstmore and Coleman.

Large numbers of tourists are daily travelling east and west through The Pass.

Work on the new road around the south side of Crown's Nest Lake has commenced.

During the past year the British government spent \$10,000,000 for jam for the British soldiers.

Forest fires have again broken out in northern Ontario and many settlements are threatened.

Five autos conveyed a party of Pincher Creekites up through the Crow's Nest Pass on Sunday.

Miss Black has returned to her home at Coleman, after an extended visit with friends at Pincher Creek.

The German battleship *Weissenfels* was hit and slightly damaged on Saturday by a British torpedo.

Capt. Colin Macleod, of the 191st, was one of the number chosen to go overseas with a draft on Monday next.

Mayor Hardie, of Lethbridge, has been elected third vice-president of the Union of Canadian Municipalities.

A picnic will be given near the falls at Lundbreck on Labor Day, for which a splendid programme has been arranged.

Lieut. W. G. Bryan, son of Lieut.-Col. Bryan of the 191st, has returned from the front to accept a commission in his father's regiment.

We understand that the government has decided to place a man permanently on road repair work between Lundbreck and Crow's Nest Lake.

King George, during his recent visit to Belgian headquarters, decorated Queen Elizabeth of Belgium with a Royal Red Cross of the first class.

A large German high seas fleet of about sixty vessels of all descriptions ventured out in the North Sea on Sunday, but returned to their base on sightings of British vessels.

Action for alimony has been started in supreme court at Lethbridge by Mrs. Ada M. Russell against Allen Russell, a well-known couple in the farming district of Macleod. Mrs. Russell alleges cruelty.

Private Thomas F. Fitzgerald, reported to have been killed within twenty-four hours after he entered the trenches, was a former employee of the customs department at Blairstmore, and later held a similar position at Edmonton. He had been in the service of the country since his boyhood and was well known.

F. W. Godsal and G. W. Patterson, of Lethbridge, both of the Alpine Club of Canada, climbed Gould's Dome, 10,150 feet, on Aug. 17th. They drove from Cowley through the Livingstone's Gap to mouth of Dutch Creek, 42 miles, and then rode one horse in turn for 28 miles to where Dutch Creek comes out of the ground near base of Gould's Dome. They saw many sheep, getting near enough to photograph them. There are extensive Alpine meadows on the divide at the head of Dutch Creek, which were ablaze with color; some varieties of flowers having passed others coming on, also acres of wild onions. The trail is a good deal blocked with fallen trees.

Rev. J. H. Hunter, M.A., B.Pd, of Coatecock, Quebec, arrived to his brother, J. F. Hunter, of the local customs department. This is Rev. Mr. Hunter's first visit to Western Canada, and he expresses himself as agreeably surprised at the extent to which the west is developing. Prior to visiting Blairstmore, Mr. Hunter visited relatives at Parkland and Nanton, and after a few days in Blairstmore continued on to Cranbrook where he hopes to enjoy a brief stay before returning to his labors in the east.

The duck season opens on September 1st and ducks are reported plentiful.

The wheat crop of Manitoba is the smallest on record, according to reports.

Miss M. Gregory returned home Sunday last from a visit to her brother at Kossland, B.C.

The Hunns are reported to have lost half a million men since the big Russian advance began on June 1st.

One and a quarter million bushels of wheat have been shipped this season from the High River district.

Fifty of the original Princess Pans are still fighting, while five thousand more men have been added to the battalion.

Mr. and Mrs. C. Church left for Calgary, via Pincher Creek, and Macleod, on Tuesday night, where they will in future reside.

A party of harvesters with about thirty horses, mules and colts, bound from Spokane to Sakato-on, passed through Blairstmore on Tuesday.

Miss L. Howe returned this week from a two-weeks' visit with friends at Cowley and has resumed her position on the other end of the wire.

Fifty-one German ships seized in Portuguese ports several months ago by the government of Portugal, the taking over of which was followed by Germany's declaration of war on Portugal and the latter's declaration of war on Germany, have been turned over to Great Britain.

According to the report given out by a Russian colonel, the Austrian losses in June and July reached the enormous total of \$800,000 men, of whom number 400,000 were total casualties. By the end of this month he claims that the total Austrian losses will aggregate a million men.

A brand new and absolutely true fish story has been placed on record. Abe Sparks reports having caught bull trout with no other means than the magnetic influence of his naked hand. Abe says he can get fish by any means and that he can make a fish do anything but talk—and the latter's not necessary.

On the completion of the war one of the most important links between Western Europe and the Near East will be the opening of the railway line to Greece—only sixteen miles in length—which will connect Paris with Athens. Sixty hours will be thereby gained in transportation to the East.

The Presbyterians opposed to the proposition of church union will hold a convocation in the city of Toronto on October 17. This decision was reached at a recent meeting of a committee appointed to take charge of the matter. The convocation will last three days and it is expected to be largely attended.

Rev. J. H. Hunter, M.A., B.Pd, of Coatecock, Quebec, arrived to his brother, J. F. Hunter, of the local customs department. This is Rev. Mr. Hunter's first visit to Western Canada, and he expresses himself as agreeably surprised at the extent to which the west is developing. Prior to visiting Blairstmore, Mr. Hunter visited relatives at Parkland and Nanton, and after a few days in Blairstmore continued on to Cranbrook where he hopes to enjoy a brief stay before returning to his labors in the east.

Blairstmore is still growing. This week no less than four girls and a boy comprised the shipment per the stork. Daughters were born to Mrs. J. Brooke, Mrs. W. Warren, Mrs. Elias Litherland, and Mrs. Edward Conpland, while Mrs. R. Roberts was the proud recipient of a Canadian soldier.

All are doing well.

Jack Stone and party returned Tuesday night from a very successful

Miss N. Patton came down from Cranbrook this week on a visit to friends.

STRAWBERRY PLANTS FOR SALE—Apply to James Redfern, Parsburg, Alta.

Miss V. Ayling left on Friday just to spend a brief holiday with friends at Vulcan.

How drift the gentle wade-man
Search on the weasel joint;
And always scrape the button off
At the most strategic points

STRAYED — A Grey Mare, last seen beyond Bellevue. Branded as eq. Reward of \$10.

JAMES E. HAMILTON,
Blairstmore, Alta.

Bellevue Happenings

Mrs. Ashworth has returned from Fernie.

The Bellevue school reopens on Monday, August 28th.

Miss Bertha Knowles is visiting friends in Medicine Hat.

Mrs. Walter Miller has returned from an extended visit to Calgary.

Fred Chappell and H. Berier were at Cowley this week on business.

Mr. and Mrs. H. Harrison were visiting friends in Fernie this week.

Mrs. R. Mitchell and Mrs. James were Blairstmore visitors this week.

Mrs. James Cousins and Mrs. G. W. Cousins were visiting in Frank this week.

The marriage of Carl Woolny to Miss Mary Lekosky took place at Bellevue this week.

Mrs. Marjorie, who had been visiting in Bellevue for some time, left for her home this week.

THREE HOUSES FOR RENT, near the Rosedale Dairy, Bellevue. Apply to Fred Chappell, Burnett's store.

A little French boy, from Frank, met with a slight accident near the West Canadian Collieries tipple at No. 1 mint this week.

Mrs. Little Charlesworth arrived this week from Nova Scotia, on a visit to her grandparents, Mr. and Mrs. William Goodwin, senior.

James Burrows, who received injuries in the mine recently, and who is being treated at the local hospital, is very much improved.

Mrs. James Burrows came down to Columbia Gardens, B.C., this week, on a visit to her husband who is being treated at the local hospital.

Mrs. B. Niven, of Frank, was visiting her daughter, Mrs. E. C. McDonald; during the week, and was accompanied by her daughter, Mrs. Frank J. Meade, of Athabasca.

The initiatory degree will be conferred at the regular meeting of Bellevue Lodge 118 on Monday night, when all members are requested to be present. Mebebe ice cream and lemon pie will be on hand, the former to be served and the latter to be "handed out."

Bellevue is still growing. This week no less than four girls and a boy comprised the shipment per the stork. Daughters were born to Mrs. J. Brooke, Mrs. W. Warren, Mrs. Elias Litherland, and Mrs. Edward Conpland, while Mrs. R. Roberts was the proud recipient of a Canadian soldier.

All are doing well.

Jack Stone and party returned Tuesday night from a very successful

Tenders For Building School

R. DAWSON,

District Passenger Agent, Calgary, Alta.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

THE sole head of a family, or any male over twenty-one years of age, may apply for a section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicants must appear before the Surveyor General or Sub-Agency of the District, Enter by proxy or personally, and pay a fee of \$10.00 (not \$10.00, but not \$10.00) on certain conditions. A homesteader may live within 10 miles of his land in each of three years. A homestead is a tract of land 160 acres in size, or certain smaller lots, subject to certain conditions. A habitable house must be erected within six months in each of three years, otherwise the land may be taken back. A settler who has exhausted his homestead rights may take a permanent homestead on land not exceeding 160 acres in size, or certain smaller lots, subject to certain conditions. Live stock may be submitted for certification under certain conditions.

W. G. C. M. H., Deputy of the Minister of the Interior, N.B.—Unpublished publication of this advertisement will not be made for—size.

ful fishing trip to Race Horse Creek, where they spent over a week disturbing the numbers of the funny tribe. Stories of fish larger than ever before related are mingled with the tale of the coyote which escaped the vision of the crack-shot near the Gap. The party report having had a most enjoyable outing, having been favored by excellent weather and general good luck.

Among the list of awards for bravery to non-commissioned officers and men recently gazetted is found the name of the late Sergt. Major George Edward Geary, who is awarded the Military Cross for having taken up a position twenty-five yards in front of the allied trenches in order better to knock out the enemy. He succeeded in doing so, though wounded. Sergt. Major Geary was a former Bellevue boy, and a more genial and promising chap never set foot on Bellevue soil. He has died as a result of his heroic effort as a soldier, but his memory will last forever with those who knew him personally or ever learned of his heroism. But a few Sundays ago, a very impressive memorial service was conducted by Rev. A. J. Law in the Methodist church here in honor of the late Bellevue hero.
